

External PD-Calibrator type 9216 Technical Specifications

**External PD-Calibrator (CE)
type 9216**

Battery-powered Calibrator. For direct coupling of the PD-Calibration Signal to the Test Object according to IEC 60270, VDE 0434, DIN 57434 and IEEE 454.

- Battery IEC 6F 22
- Battery Voltage 9V
- PD-Calibration Pulse Ranges
10 – 10² – 10³ – 10⁴ pC
- Light Synchronization
- Dimensions W 67 x L 110 x H 42 mm
- Weight 0.2 kg (0.44 lb)
