

MSR

Modular Series Resonant – 250... 2200kV; 500kVA... 90,000kVA

FEATURES & BENEFITS

- Pure AC sine wave at output
- Mobile via air pads
- PC based controls hardened for industrial & laboratory applications, with remote assistance
- Nearly fifty years of industry leading designs
- Largest worldwide installed base
- Indoor and outdoor designs
- Series Resonant provides a protective voltage collapse should the device under test fail
- Multiple Q values to meet a variety of applications

APPLICATIONS

- Cables
- GIS
- Transformers
- Bushings
- CTs, PTs and CCVTs
- Partial Discharge Testing
- C, Tan δ , PF measurements
