

TSR

Tank Series Resonant – 15... 400kV; 100kVA... 36,000kVA

FEATURES & BENEFITS

- Pure AC sine wave at output
- Mobile via fork lift, crane or air pads.
- PC based controls hardened for industrial & laboratory applications, with remote assistance
- Nearly fifty years of industry leading designs
- Largest worldwide installed base
- Series Resonant provides a protective voltage collapse should the device under test fail
- Multiple Q values to meet a variety of applications
- Compact design
- Minimum Power input requirements

APPLICATIONS

- Cables
- Generators
- GIS
- Bushings
- Capacitors
- CTs, PTs and CCVTs
- Partial Discharge Testing
- C, Tan δ , PF measurements
